

WORKING LANDS

Internship Program

BEST SUMMER EVER!

Hands on Experience

This program provides Jr & Sr college students majoring in Natural Resources or Biological Sciences the opportunity to apply theory learned in the classroom to practical, hands-on applications by working on four to six production agriculture operations in 2-3 week increments.

Logistics

Students will be responsible to help in any way possible on host ranches doing various tasks that are necessary for daily ranch operations. One day you might be fixing fence, the next driving a tractor or irrigating!

Highlights

Free room & board, Paid 10-12 week internship, hands-on experience in a ranch environment, networking with ranchers & agency personnel, and an unforgettable summer internship experience!
